BRIGHTEN YOUR VISION

ICOM-CC aims to promote the conservation of culturally and historically significant works and to further the goals of the conservation profession around the world.

ICOM-CC strategic plan

During the triennial period 2017-2020, ICOM-CC will be guided by the following objectives:

- Continue to increase opportunities to communicate amongst both members and external heritage professionals.
- Develop closer links with other conservation organisations to better pool resources as well as to improve services for members.
- Promote ICOM-CC and the conservation profession and increase opportunities for cross-disciplinary communication. Increase exchange of conservation, analysis, research, theory, and practical conservation skills.
- Optimise administrative tasks for managing assets. Create access to the many peer reviewed preprints and publications produced the last 50 years.
